

GITHUB AND INTRO TO JAVASCRIPT

Presented by:
Muritala Sheriffdeen Adegoke

What is GitHub?

- Cloud platform for storing code
- Uses Git for version control
- Supports collaboration and backup

Features of GitHub

- Repositories
- Pull Requests
- Issues Tracking
- Team Collaboration
- Open Source Hosting

Basic GitHub Operations

- Create repository
- Upload files
- Edit files
- Clone repo
- Push and Pull updates

Common Git Commands

1. `git init`
2. `git add .`
3. `git commit -m 'message'`
4. `git push`
5. `git pull`

Why GitHub is Important

- Portfolio for developers
- Secure backup
- Track progress
- Used in companies

What is JavaScript?

- Programming language for the web
- Makes pages interactive
- Runs in browsers

Uses of JavaScript

- ✓ Web apps
- ✓ Mobile apps
- ✓ Games
- ✓ Backend with Node.js

HTML + CSS + JavaScript

A. HTML = Structure

B. CSS = Design

C. JavaScript = Functionality

JavaScript scripting

```
button onclick='alert(Hello World)'
```

Creating html Element using DOM and store it in a Variable

```
Paragraph = document.createElement(p)
```

Accessing html Element using DOM

```
Input1 = document.getElementById()  
document.getElementsByClassName()  
document.getElementsByTagName()  
document.querySelector("./# Notation")  
document.querySelectorAll(".box") etc.
```

Advantages of JavaScript

- Easy to learn
- Fast
- Large community
- Works everywhere

Conclusion

- GitHub manages code
- JavaScript adds interactivity
- Both are essential

A solid orange vertical bar is positioned on the left side of the slide.

THANK YOU

Questions?

ASSIGNMENT

Option 1: Simple Greeting App

Task: Create a webpage with:

An input field for name button When button is clicked, display: Hello, {your Name}
Welcome to JavaScript.

Option 2: Basic Calculator

Task: Create:

- Two input boxes
- Add button
- Show result below
- Example: $5 + 3 = 8$

Option 3: Age Checker

Task: Ask user to enter age. If age is: less than 18 → "Minor" 18+ → "Adult"

Option 4: Color Changer

Task: Create button that changes page background color when clicked.
